Refereed publications:

63 Swanston JS, Newton AC, Hoad S, Spoor W, 2005. Barleys grown as cultivar mixtures, compared with blends made before and after malting, for effects on malting performance. Journal of the Institute of Brewing 111, 144-152.

17 Newton AC, Thomas WTB, 1993. The interaction of either an effective or a defeated major gene with non-specific resistance on mildew infection (Erysiphe graminis f.sp. hordei) and yield in mixtures of barley. Journal of Phytopathology 139, 268-274.

7 Newton AC Crute IR, 1989. A consideration of the genetic control of species specificity in fungal plant pathogens and its relevance to a comprehension of the underlying mechanisms. Biological Reviews 64, 35-50.

Books and invited chapters in books:
- Induced Resistance for Plant Defence: a sustainable approach to crop protection, Eds: Dale Walters,

Chapters:

**Book:**

Non-refereed publications and knowledge exchange:

373. Elicitors show potential for seed treatments of the future. Article by Heather Briggs for Farmer’s guardian on talk given at AICc Annual Meeting, Technical conference Wednesday 13th January at Whittlebury Hall, Towcester.

398. Daniell T, Loades K, Newton AC, 2015. ‘Climate change will have far reaching effects on UK Agriculture’ say Hutton scientists. Press release 8th
Rhynchosporium commune

Economic and environmental evaluation of IPM strategies. IPM Innovation in Europe
2nd Mau 2014. Geophysical

through enhancing its

Rhynchosporium commune

Diversity, and Ecosystem Services. Knowledge Scotland
Proceedings of Crop Protection in Northern Britain, February 2014, 186

Agronomic evaluation of IPM strategies in on
Proceedings of Crop Protection in Northern Britain, February 2014, 193

Solanum lycopersicum

effectors identification and exploitation. International Workshop on Barley Leaf Diseases,

277 Newton AC, Report on keynote address given in 'Odla sortblandningar – hur och varför. (Swedish). 'PlantComMistra' Workshop on 'Modern landraces - cultivar mixtures in Agriculture' to be held at the Royal Swedish Academy of Agriculture and Forestry in Stockholm, Sweden on 9th November (Dept of Plant Breeding and Biotechnology, Swedish University of Agricultural Sciences, Alnarp, Sweden, November 2011).

199 Zhan J, Marshall BM, Newton AC, 2006. Evolution of pathogen aggressiveness under a simple host mixture. Biological Interactions and Biological Crossroads: Joint Meeting of the American Phytopathological Society, Canadian Phytopathological Society and Mycological Society of America, July 29–August 2, Quebec City, Canada.

196 Hallett PD, Newton AC, Bengough AG, Binnie K, Gordon DC, Guy DC, McKenzie BM, Valentine T, 2006. Do mixed cultivars outperform monocultures under defined soil tillage regimes? Poster,

189 Newton AC, 2006. Assessment and inoculation of Rhynchosporium secalis, scald or Rhynchosporium leaf blotch (RLB). In: Handbook on assessment methodologies in low input/organic cereal variety testing.

94 Newton AC, 1996. 'BSPPWeb'. The British Society for Plant Pathology World-Wide Web Server move to new site and upgrade (General information, Council, BSPP News, International Congress for Plant Pathology information, Membership information, Plant Pathology Contents, Future developments, Meetings and conferences, Publications, Pathology-related web sites listings, etcetera).
