

## Publications on induced resistance

- Walters, D., Lyon, G.D., Newton, A.C. 2007. Induced resistance in crop protection: the future, drivers and barriers. In: Induced Resistance for Plant Defence: a sustainable approach to crop protection. Eds: Dale Walters, Gary Lyon and Adrian Newton, pp. 243-250. Blackwell Publishing, Oxford, UK.
- Newton, A.C., Pons-Kohnemann, J, 2007. Induced resistance in natural ecosystems and pathogen population biology: exploiting interactions. In: Induced resistance for plant defence: a sustainable approach to crop protection, pp. 133-142. Eds. Dale Walters, Adrian Newton, Gary Lyon, Blackwell Publishing, Oxford, UK.
- Walters, D., Walsh, D., Newton, A., Lyon, G. 2005. Induced resistance for plant disease control: maximising the efficiency of resistance elicitors. *Phytopathology*, 95, 1368-1373.
- Lyon, G.D., Newton, A.C. 1999. Immunizing plants against pathogens: Implementing induction in Agriculture. In: Induced plant defenses against pathogens and herbivores, eds: Anurag Agrawa, Rick Karban, Sadik Tuzun, pp. 299-318. APS Press, American Phytopathological Society, St Paul, Minnesota.
- Lyon, G.D., Newton, A.C. 1997. Do resistance elicitors offer new opportunities in integrated disease control strategies? *Plant Pathology* 46, 636-641.
- Lyon, G.D., Forrest, R.S., Newton, A.C. 1996. SAR - The potential to immunise plants against infection. Brighton Crop Protection Conference 1996. Proceedings. Publisher BCPC. 939-946
- Miller, S.K., Lyon, G.D. 1996. The ability of elicitors to induce resistance in potatoes. Proceedings 13th Triennial Conference of the European Association for Potato Research, Netherlands 1996. 462-463.
- Lyon, G.D., Reglinski, T., Forrest, R.S., Newton, A.C. 1995. The use of resistance elicitors to control plant diseases. *Aspects of Applied Biology. Physiological responses of plants to pathogens* 42, 227-234.
- Lyon, G.D., Reglinski, T., Newton, A.C. 1995. Novel disease control compounds: The potential to 'immunize' plants against infection. *Plant Pathology* 44,407-427.
- Miller, S. K., Lyon, G.D. 1995. Assessment of the ability of elicitors to induce resistance to *P. infestans* in potato. Proceedings of EAPR meeting "Phytophthora 150", Dublin, September 1995. Edited by L.J. Dowley, E. Bannon, L.R Cooke, T. Keane and E.O'Sullivan. Published by Poole Press Ltd Dublin and Teagasc, Carlow, Ireland. Abstract p 370-371
- Newton, A.C., Reglinski, T., Lyon, G.D. 1995. Resistance elicitors from fungi as crop protectants. M. Manka (ed), *Environmental biotic factors in integrated plant disease control* 419-422. Proceedings 3rd Conference of the European Foundation for Plant Pathology, Poznan, Poland.
- Reglinski, T., Lyon, G.D., Newton, A.C. 1995. The control of *Botrytis cinerea* and *Rhizoctonia solani* on lettuce using elicitors extracted from yeast cell walls. *Journal of Plant Diseases and Protection* 102, 257-266.
- Reglinski, T., Lyon, G.D., Newton, A.C. 1995. Induction of plant defence mechanisms for crop protection. Proceedings of the 10th Biennial Australasian Plant Pathology Society Conference, Lincoln University, NZ, 28-30th August 1995. Abstract number 57, page 48.

- Reglinski, T., Lyon, G.D., Newton, A.C. 1995. Stimulating the plant "immune system" using resistance elicitors. HortResearch 1995 Technical Updating Seminars, Pest and diseases; problems and solutions. Ruakura Research Centre, Hamilton, NZ, 29th May, 1995. p54-59.
- Newton, A.C., Reglinski, T., Lyon, G.D. 1994. Resistance elicitors from fungi as crop protectants. In: Environmental biotic factors in integrated plant disease control. Proceedings of the third meeting of the European Foundation for Plant Pathology, Poznan, Poland. Abstract p74.
- Reglinski, T., Lyon, G.D., Newton, A.C. 1994. Induction of resistance mechanisms in barley by yeast-derived elicitors. *Annals of Applied Biology* 124,509-517.
- Reglinski, T., Newton, A.C., Lyon, G.D. 1994. Assessment of the ability of yeast-derived resistance elicitors to control barley powdery mildew in the field. *Journal of Plant Diseases and Protection* 101, 1-10.
- Lyon, G.D., Reglinski, T., Newton, A.C. 1993. Assessment of the potential to use phytoalexin elicitors as a crop protectant. In, *Mechanisms of plant defense responses*. (Eds B.Fritig and M.Legrand). Kluwer Academic Publishers, Netherlands. 452.
- Newton, A.C., Lyon, G.D., Reglinski, T. 1993. Development of a new crop protection system using yeast extracts. Home-Grown Cereals Authority Project Report No. 78. pp41.
- Newton, A.C., Reglinski, T., Lyon, G.D. 1993. Development of a novel crop protection system using yeast derived resistance elicitors. Abstracts 6th International Plant Pathology Congress, Montreal, Canada. 217.
- Reglinski, T., Lyon, G.D., Newton, A.C. 1993. Lettuce: A non-toxic crop protection system for lettuce (and other vegetable crops). Horticultural Development Council project report PV/FV135.
- Reglinski, T., Newton, A.C., Lyon, G.D. 1993. Assessment of the potential to use phytoalexin elicitors as a crop protectant. Proceedings of the Crop Protection Conference in Northern Britain 1993. 361.
- Lyon, G.D., Reglinski, T., Newton, A.C. 1992. Assessment of the potential to use phytoalexin elicitors as a crop protectant. 2nd Conference of the European Foundation for Plant Pathology, Strasbourg, France. Abstract P136.
