Suggested Citation: Castellazzi, M., Aalders, I., Irvine, K.N. (2022). A prototype methodology to mapping selected bio-physical aspects of CICES-defined Aesthetics in Scotland. *RESAS 1.4.1 Method testing for aesthetics cultural ecosystem services*. James Hutton Institute, Scotland, UK.

Appendix G. “Level 3” large scale maps of the 10 metrics and final map, displayed to compare the metrics values contributing to the final Aesthetics prototype map (Equal intervals classification)

Filename: AppendixG_finalMap_10metrics_Level3_EqualIntervals.pdf

Equivalent of maps in:

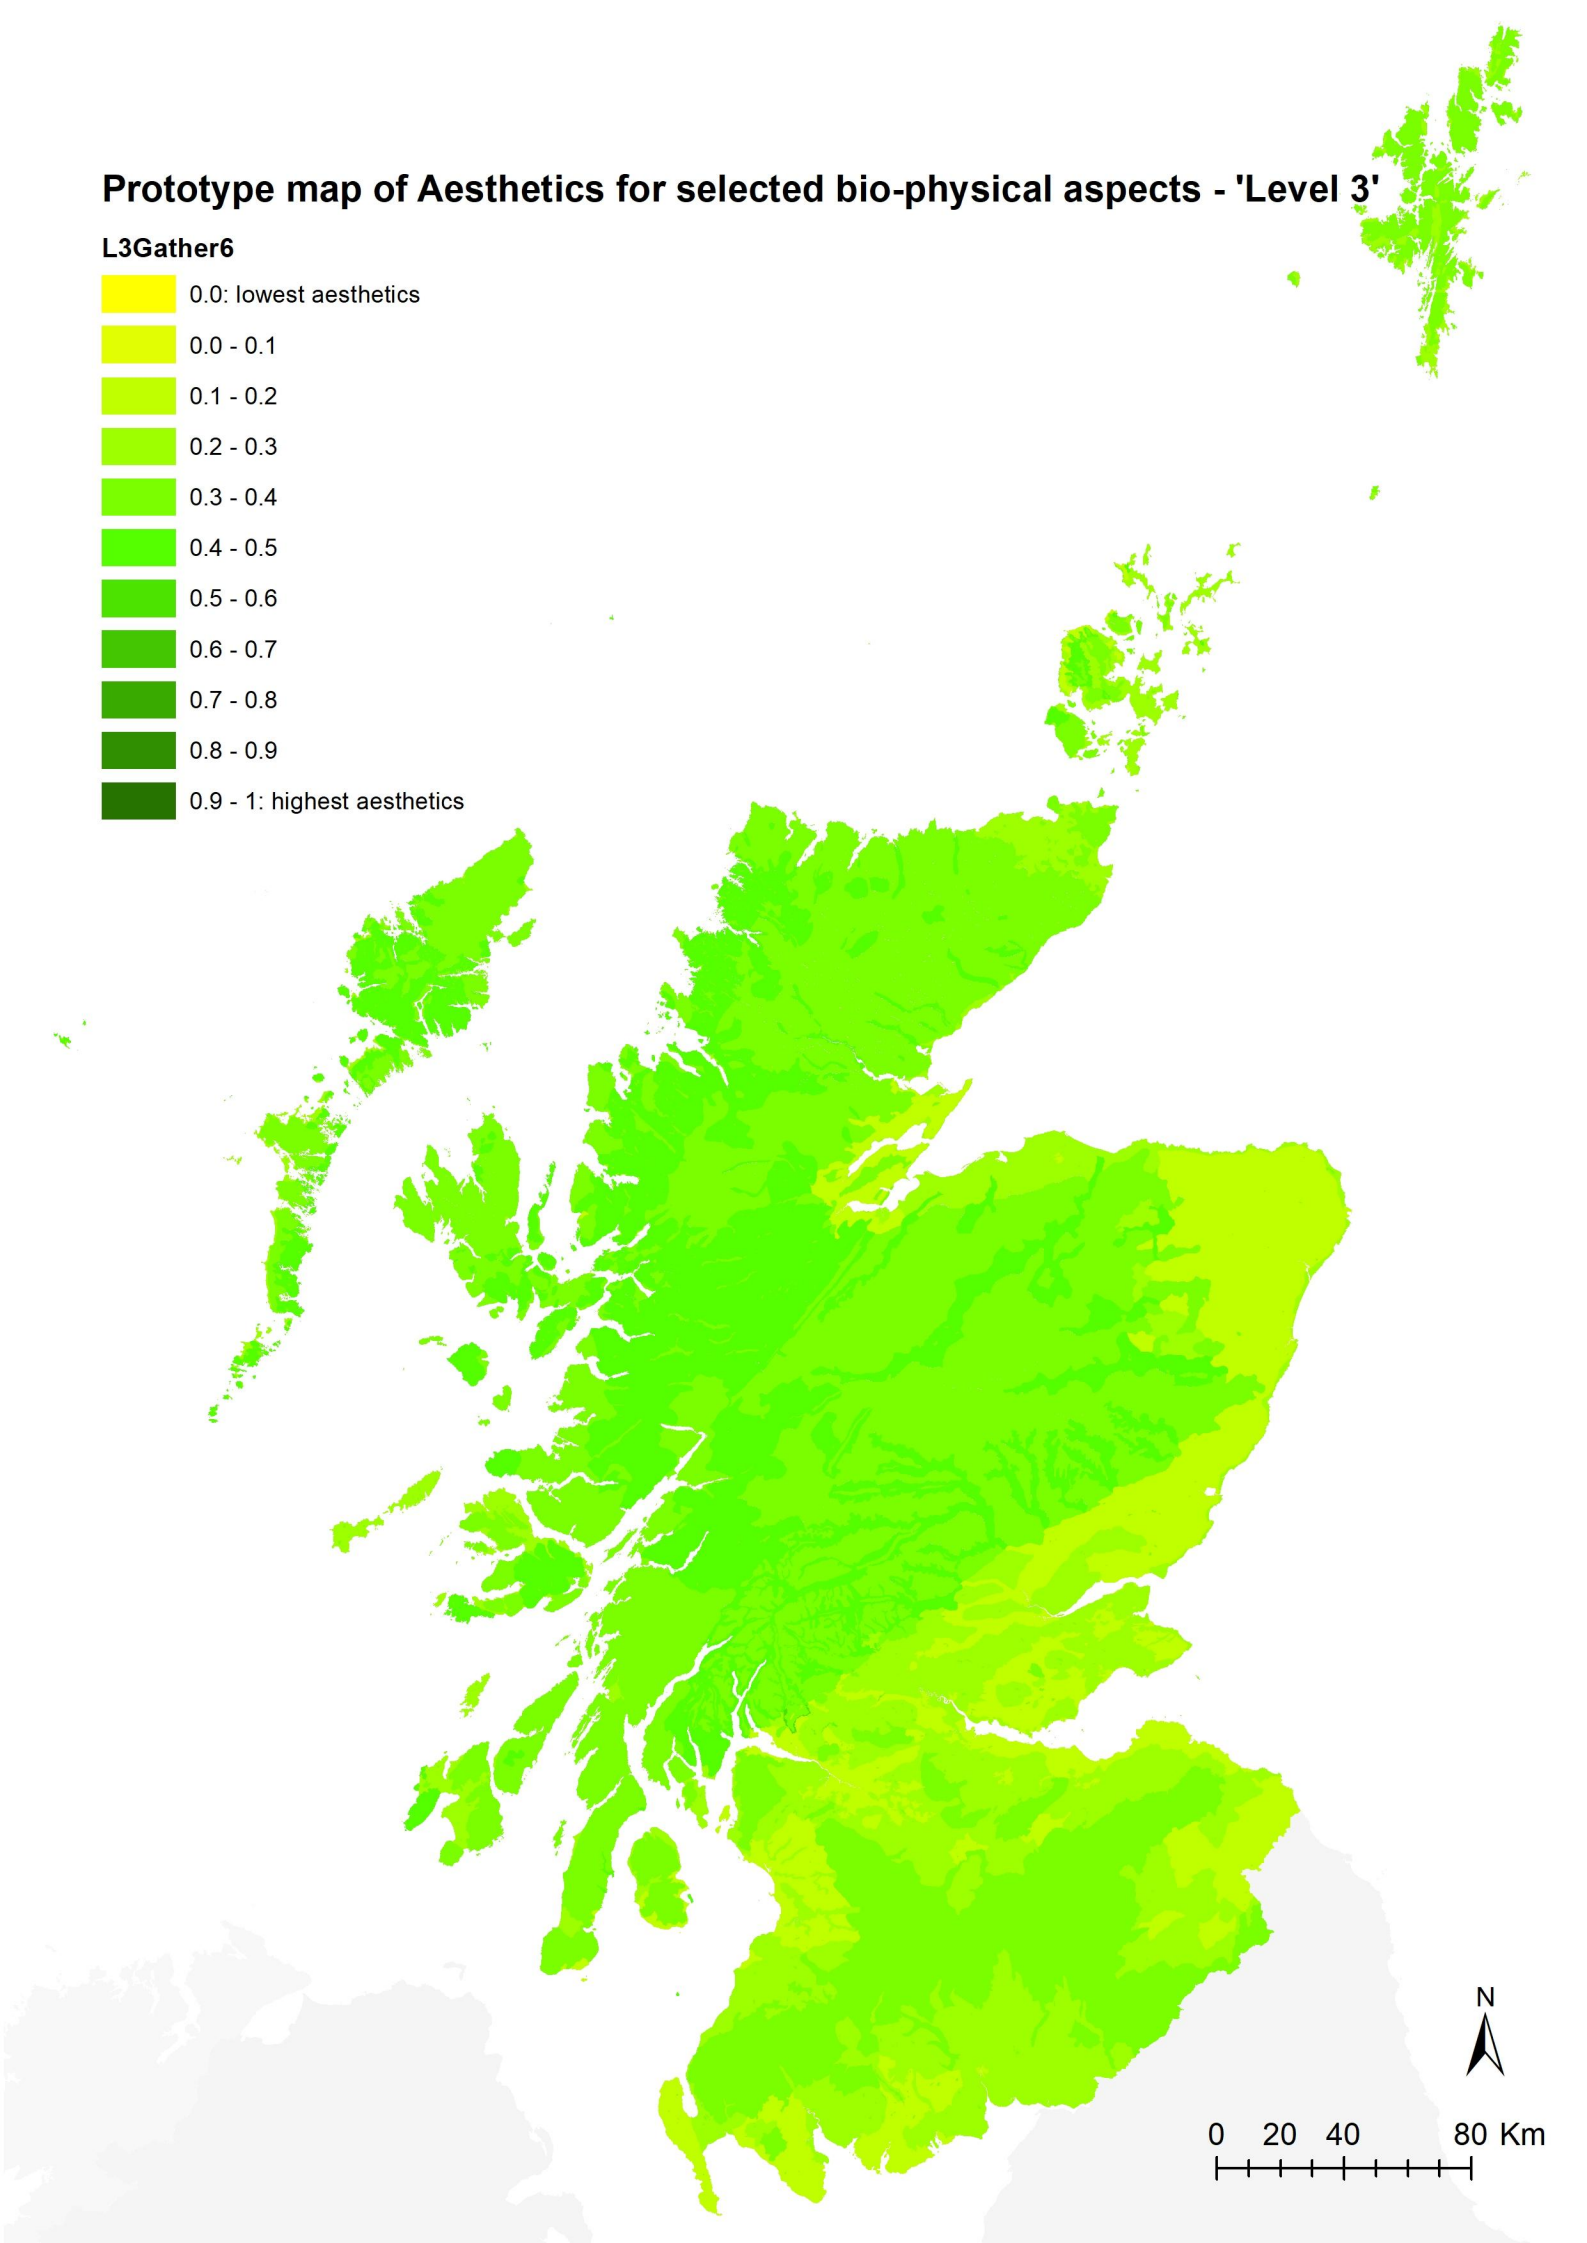

- Appendix F: “Level 3” 10 metrics rescaled 0-1, displayed with identical scales across all maps

Contents:

Map titles	Pages	Notes
Prototype map of Aesthetics for selected bio-physical aspects – ‘Level 3’	2	This map is not present in the main report
Relief diversity	3	This map is only present in Appendix F
Density of freshwater edges	4	This map is only present in Appendix F
Density of coastlines	5	This map is only present in Appendix F
Proportion of unfragmented open space >100km ²	6	This map is only present in Appendix F
Hemeroby index	7	This map is only present in Appendix F
Core area index of (semi-) natural areas	8	This map is only present in Appendix F
Shannon diversity index (SHDI)	9	This map is only present in Appendix F
Patch density – native woodlands	10	This map is only present in Appendix F
Patch density - heathers	11	This map is only present in Appendix F
Density of forest-dominated ecotones	12	This map is only present in Appendix F
